İstanbul's New Hue Rengi İstanbul

LIFE'S SHADES AT RENGİ İSTANBUL

Rengi İstanbul is an exclusive villa project that brings together the blue of the lake and the sea, the green of the forest, and the elegance of natural stone along a single line. Each villa—featuring light-filled interiors, expansive landscaped grounds, and a private pool—offers a peaceful living space, away from the noise of the crowd yet still connected to the city. Here, spaces are designed to flow in harmony with nature, and every detail is conceived to reinforce this unity.

Colors return; daylight sharpens.
A measured flow, a life that finds its place.

In the city's shadow, tones merge; the day is pressed into
a grey rhythm. Time moves on, and life fades from view.

LOCATION IS LIFE'S FIRST COMFORT.

Rengi İstanbul is in Büyükçekmece—close to the lake and the sea, with easy access to the E-5–Tüyap–Coastal corridor. Without disconnecting from the city, it offers a measured lifestyle rooted in nature’s tones.

Beyond the chaos, within both nature and the city.

WHERE COLORS MEET

Rengi İstanbul is set along a measured line between the city's rhythm and nature's balance. With blue and green as constant companions, this location gives every day a calm beginning.

Sea
on the horizon line

Lake
at the edge of serenity

Nature
at the heart of life

Peace
at the center of silence

Light
in the color of morning

City
beyond the chaos
